

California OES Weather Threat Briefing

Monday, June 24, 2019
9:00 AM PDT

Day 1: Low to moderate heat risk impacts possible due to warmer temperatures. Elevated fire weather concerns due to dry grasses and breezy conditions in some locations.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

06/24/19 - 06/30/19

Monday

- Warmer temperatures have returned to much of the state, but with only low to moderate heat risk impacts expected
- Dry conditions continue across the state
- Occasionally breezy winds will lead to elevated (but currently not critical) fire weather concerns across portions of Inland and Southern Regions

Tuesday-Friday

- A cooling trend starting Tuesday will reduce or eliminate any significant heat risk impacts
- Occasionally breezy winds through the week will continue to lead to elevated (but currently not critical) fire weather concerns across portions of Inland and Southern Regions

Saturday-Sunday

- Low to moderate heat risk impacts could return to Southern Region over the weekend
